

August 2025 Newsletter

Precision Heats Up This August!

Why does calibration matter? Let's take a look...

Accurate test results are essential when working with soils, asphalt, and concrete. Regular calibration ensures your equipment meets industry standards like ASTM and AASHTO, helping you stay compliant, avoid costly rework, and maintain a trusted reputation. It also extends equipment life, supports quality control, and ensures your data holds up under scrutiny—whether during audits or disputes.

Ad-Tek is here to calibrate, verify, repair, and replace any of your equipment, so you can stay focused on delivering reliable results.

Need service? Contact us today to schedule your next calibration or repair! Remember, we often schedule 2 months ahead and will contact you if you've already used us for calibrations in the past!

BRING US YOUR TENSION LOAD CELLS/LINKS!

We continue to strive to be your ONE-STOP-SHOP in calibrations, repairs, sales & service! We have a relatively quick turn-around on tension load cells/links in our local shop.

Call us today to get a quote!

Remember that all tension equipment needs to have an indicator sent in with it.

TECH TIPS OF THE MONTH

- Spherical heads need to be lubed at a minimum of 2x per year. 40lb weight gear oil is recommended.
- Call us! We want all of our customers to be aware that they can call us when any issues arise with their testing equipment. We offer free over the phone tech support to help troubleshoot your issue before trying to fix it on your own or setting up repairs.
- Clean your molds often! When they get gunked up, they can jam your testing equipment.

LET US DO THE RESEARCH FOR YOU

Call or email our sales team your purchasing needs and let them do the research on the most compatible equipment, consumables, and best pricing for you. We work with many different vendors and manufacturers to get best pricing for our customers!

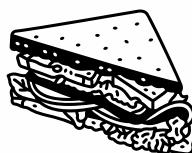

AUGUST FUN FACTS

August is the only month without a major U.S. Holiday.

National Watermelon Day is August 3rd. Did you know watermelon is 92% water?? It's perfect for staying cool!

August is National Sandwich Month. I do love a good PB&J!

August 12th is concrete's birthday. Joseph Monier, a French gardener, received a patent for reinforced concrete on this day in 1875.

EQUIPMENT TROUBLE? WE'RE ON IT!

We consider your busy working season our version of "firefighting" season—when your equipment is running non-stop and issues can pop up fast. When something breaks or fails, don't stress—just call Ad-Tek!

Here's how our Service Call process works:

- 1.) Give us a call and explain the issue you're experiencing.
- 2.) We log the details into our Service Call Log, capturing as much information as possible.
- 3.) A technician will reach out to troubleshoot with you over the phone, offering possible solutions right away.
- 4.) If needed, we'll order parts and schedule an on-site visit to evaluate and repair your equipment.

We truly appreciate the trust our customers place in us. Our goal is always to respond quickly, troubleshoot thoroughly, and resolve your equipment issues as efficiently as possible.

New UTEST Equipment

Below items are in-stock and tariff-free!

- **MECHANICAL SOIL COMPACTOR
W/ MOLDS AND HAMMERS**
UTS-0660-N-C \$6,700.00 EACH
- **UTM MACHINE**
UTM-8300.SMD2-N-DS3 \$52,840.00 EACH
- **250L LAB OVEN**
UTD-1305-N-DS3 \$2,550.00 EACH
- **AIR PRESSURE METER**
UTC-0650 \$680.00 EACH
- **TRAY SHAKER**
UTG-0420-N \$5,300.00 EACH
- **FULLY AUTOMATIC COMPRESSION TESTING
MACHINE WITH STAND**
1500KN (337K): UTC-4712.FPR-N-C \$12,800.00 EACH
2000KN (449K): UTC-4722.FPR-N-C \$14,000.00 EACH
- **MASTER LOADER**
FOR MARSHALL, HVEEM, AND SCB TESTING & ASPHALT
COMPRESSION AND SOIL TESTS SUCH AS CBR AND TRIAXIAL!
UTM-0108.SMPR-N-STK \$7,700.00 EACH

*** ITEMS LIMITED TO STOCK ON-HAND/PRICE SUBJECT TO CHANGE***
