Red, White & Recalibrated!

We are your comprehensive solution for calibration across all industries!

While many companies focus on just one area of calibration—like temperature, mass, force, or dimensional tools—Ad-Tek does it all. Our highly trained technicians provide expert calibration services across a wide range of industries, including: wood products, environmental testing, aerospace, steel, asphalt, aggregate, concrete, soils, marine, and cannabis.

If it needs calibrating, we've got you covered.

We also specialize in advanced and heavy-duty equipment, including Gyratory Compactors, binder equipment, and force calibrations up to 1 million pounds (compression) and 600,000 pounds (tension).

When it comes to precision and performance, Ad-Tek is your one-stop calibration partner - saving you time and money in travel expenses.

BRING US YOUR TENSION LOAD CELLS/LINKS!

We continue to strive to be your ONE-STOP-SHOP in calibrations, repairs, sales & service! We have a relatively quick turn-around on tension load cells/links in our local shop.

Call us today to get a quote!

Remember that all tension equipment needs to have an indicator sent in with it.

TECH TIPS OF THE MONTH

- Spherical heads need to be lubed at a minimum of 2x per year. 40lb weight gear oil is recommended.
- Call us! We want all of our customers to be aware that they can call us when any issues arise with their testing equipment. We offer free over the phone tech support to help troubleshoot your issue before trying to fix it on your own or setting up repairs.
- Clean your molds often! When they get gunked up, they can jam your testing equipment.

MOVING YOUR EQUIPMENT?

Did you move your Gyratory Compactor, NCAT, testing machines, scales, etc.?

If so, you may need a recalibration. Depending on individual state requirements, AASHTO R18 6.2.1.3 specifies equipment & measurement standards that may be affected by moving them to a new location or environment shall be recalibrated, standardized, or checked before being placed into service

JULY FUN FACTS

The third Sunday in July is National Ice Cream Day, but if you're looking for an excuse, all of July is National Ice Cream Month!

Concrete was invented in July. The Romans began using early forms of concrete around this time of year to withstand hot summers.

July 11th is National 7-Eleven Day: Free Slurpees and nostalgia!

New UTEST Equipment

In-stock and tariff-free!

**MECHANICAL SOIL
COMPACTOR WITH MOLDS
AND HAMMERS**

UTS-0660-N-C
\$6,700.00 EACH

**FULLY AUTOMATIC
COMPRESSION TESTING
MACHINE WITH STAND**

1500KN (337K):
UTC-4712.FPR-N-C
\$12,800.00 EACH

2000KN (449K):
UTC-4722.FPR-N-C
\$14,000.00 EACH

TRAY SHAKER

UTG-0420-N \$5,300.00
EACH

MASTER LOADER

FOR MARSHALL, HVEEM, AND SCB TESTING &
ASPHALT COMPRESSION AND SOIL TESTS
SUCH AS CBR AND TRIAXIAL!

UTM-0108.SMPR-N-STK
\$7,700.00 EACH

250L LAB OVEN

UTD-1305-N-DS3
\$2,550.00 EACH

UTM MACHINE

UTM-8300.SMD2-N-DS3
\$52,840.00 EACH

AIR PRESSURE METER

UTC-0650
\$680.00 EACH

*** ITEMS LIMITED TO STOCK ON-HAND/PRICE SUBJECT TO CHANGE***
