

September 2025 Newsletter

Check, check, check it out! We're ready to fall into fall!

We are your one-stop shop!

To best serve our customers, we are your complete, one-stop shop for product sales, calibrations, repairs, and everything in between!

New Equipment & Product Sales: Concrete, asphalt, soils, and a multitude of peripheral items are typically available with a quick lead time. We are skilled in determining what you need (even if you don't know what the item is called) by using ASTM/AASHTO test methods or working with our network of suppliers.

Used Equipment: We have acquired a lot of used equipment carefully stored at our local warehouse. Let us know what you're looking for -- we may just have something!

Calibration Services: We are the leading West Coast provider for on-site calibration services for government and private material testing labs and producing facilities. Our highly-trained technicians service our customers all over the West Coast and beyond!

BRING US YOUR TENSION LOAD CELLS/LINKS!

We continue to strive to be your ONE-STOP-SHOP in calibrations, repairs, sales & service! We have a relatively quick turn-around on tension load cells/links in our local shop.

Call us today to get a quote!

Remember that all tension equipment needs to have an indicator sent in with it.

TECH TIP OF THE MONTH

Pad Caps - the importance of using a releasing agent:

Before testing concrete cylinders, some manufacturers recommend dusting the pads and specimen ends with corn starch or talcum powder. This small step, as noted in ASTM C1231 (Note 3 of Section 7.2), can help ensure a smoother, more reliable test setup by reducing friction and preventing sticking between the pad and concrete surface.

SEPTEMBER FUN FACTS

September is the only month with nine letters in its name, just like its position as the ninth month of the year. It also holds the distinction of being the month with the longest name!

Notable September birthdays include Adam Sandler, Bruce Springsteen, Bill Murray, Freddie Mercury, Queen Elizabeth, and Stephen King.

September holds many random days, but two notable favorites are National Talk Like a Pirate Day on the 19th and National Coffee Day on the 29th. And my most pressing question to you all - "Do you remember the 21st night of September?"

September 22, 1789 the US Post Office opened.
September 29, 1789 the United States Army was created by Congress with 1,000 enlisted men and officers.

Thermolyne NCAT Asphalt Furnace

This feels like the summer of the NCAT! As a preferred service provider for Thermo Fisher, our technicians have been busy with service calls and on-site evaluation and repairs as labs are using their NCATs this summer! Do you have one? Or do you need one???
