November 2026 Newsletter

A little gratitude goes a long way -- thanks for being part of our year!

AASHTO R 18-26 IS COMING - AD-TEK IS READY!

Beginning **January 1, 2027,** AASHTO re:source and CCRL will begin assessing laboratories to the updated **AASHTO R 18-26** requirements. The revision includes important changes involving calibration service providers, measurement standards, equipment records, and Annex A equipment requirements.

At **Ad-Tek, Inc.**, we've reviewed the changes and are prepared. Our procedures, documentation, calibration certificates, and accredited services are aligned to support our customers as the new requirements take effect.

One notable change is the addition of **Section 6.9,** which requires laboratories to review the capabilities of their calibration service provider before hiring them.

For Ad-Tek customers, the message is simple: we're aware, prepared, and ready.

No scrambling. No surprises. Just accredited calibration services and documentation designed to help keep your laboratory assessment-ready.

Questions about how R 18-26 may affect your equipment or calibration program? Contact us — we're happy to help.

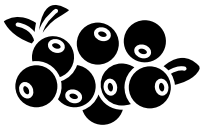

Ad-Tek, Inc.
Accredited calibration. Industry expertise. Assessment ready.

DID YOU KNOW?? AD-TEK HAS LIMITED RENTAL EQUIPMENT AVAILABLE!

Brovold Gyratory Compactors, 250K Compression Testing Machine, NCAT Ignition Furnace

Call for pricing and availability -- 3 month minimum.

NOVEMBER FUN FACTS

Cranberries can bounce and float! Small air pockets inside these tart little berries help them float in water—and give fresh, firm cranberries a surprising bounce.

Wild turkeys sleep in trees. They may spend much of their day on the ground, but these large birds can fly up onto branches to roost overnight.

An attitude of gratitude is worth sharing. November 13 is World Kindness Day—a reminder that even small acts of kindness can make a big difference. Whether it's thanking a coworker, helping a neighbor, or sharing a few encouraging words, a little kindness can brighten someone's day and inspire others to pass it along!

New Equipment

Below items are in-stock and tariff-free!

- **Fully Automatic Concrete Compression Testing Machine w/Stand**

  337,000LBF (1500KN):
  UTC-4712.FPR-N-C
  $11,495.00 each

  449,000LBF (2000KN):
  UTC-4722.FPR-N-C
  $12,495.00 each

- **Mechanical Soil Compactor w/Molds and Hammers**

  UTS-0660-N-C $5,495.00 each

- **Lab Oven 250L (8.8 cubic feet)**

  UTD-1305-N-DS3
  $2,550.00 each

- **Cylinder Grinder**

  Traditional style:
  UTC-1040-N-STK
  $11,495.00 each

  Newer style:
  UTC-1060-N-STK
  $16,495.00 each

- **NCAT Ignition Furnace**

  F85930-33
  List: $22,900.00
  Our price: $14,250.00 each
  (1 used - call for pricing!)
